E-Governance Report

The **Academic Planning and Development** section of this e-governance report provides an overview of the initiatives and strategies implemented to enhance the academic landscape within our institution. The institution has adopted a Learning Management System (LMS) to facilitate online course delivery, assignment submission, and grading.

The **Administration** section of this e-governance report outlines the digital initiatives undertaken to improve administrative efficiency and transparency. An electronic office (E-Office) system has been introduced for administrative tasks, reducing paperwork and enhancing document management.

The **Finance and Accounts** section outlines the digitization of financial and accounting processes to ensure accuracy, transparency, and fiscal responsibility. Expense management systems track and approve expenditures, reducing the risk of financial irregularities.

The section on **Student Admission and Support** emphasizes endeavors aimed at streamlining the admission procedure and delivering improved assistance and services to students.

The **Examination** segment outlines the steps taken to modernize and enhance the processes of conducting exams and assessments by incorporating digital solutions and improvements.
