OBC CELL POLICY

The OBC cell at the college was established with the aim of empowering students from 'other backward classes' in order to solve the different concerns of gaps in the social setup and bring about equity in society. The college is particularly committed to facilitating financial support for these communities through Government agencies and other sources. The cell remains actively engaged in the implementation of different UGC, Government of India, and State Government initiatives regarding scholarships, stipends, etc. for the benefit of the reserved categories.

OBJECTIVES

- The goal is to help students and staff from OBC categories at the college to take advantage of the educational and career opportunities provided by the government and other organizations, by providing them with education, awareness, and resources.
- The cell ensures that the college's reservation policy is implemented properly and effectively, by monitoring it closely, evaluating its outcomes, and taking action as needed to improve compliance with the policy and meet the requirements of the Indian government and UGC.
- The cell gathers and analyze data on how well the policies for admissions, teaching, and non-teaching positions in the college are being implemented with respect to the OBC quota, in order to identify trends and patterns, and to ensure that the required quota is being fulfilled.
