Expertise and Competencies

Introduction

At Al Azhar Dental College, students undergo a comprehensive educational journey designed to equip them with unparalleled expertise and competencies in the field of dentistry. As the sole dental institution in the Idukki district, the college takes on the responsibility of producing graduates who are not only skilled practitioners but also future-ready professionals.

CDE Programmes

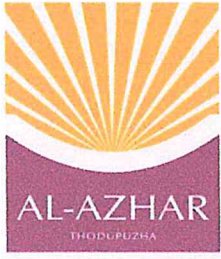

The college stays abreast of cutting-edge developments in dentistry. Recognizing the rapid evolution of the field, the institution fosters a culture of continuous learning and professional development through organizing regular continuing dental education programmes. Graduates are instilled with a sense of curiosity and a commitment to ongoing education. This prepares them to adapt to the dynamic landscape of dentistry, ensuring that they remain at the forefront of their profession. To further facilitate this pursuit of excellence, Al Azhar Dental College hosts a range of programs aimed at enhancing expertise and competencies. These programs are tailored to address the specific needs and aspirations of students. They encompass specialized workshops, advanced training modules, and seminars led by distinguished practitioners and experts in the dental field.

Career Guidance

Additionally, the college is dedicated to nurturing a global perspective among its graduates. Recognizing the value of international exposure, the college conducts career guidance and overseas education programs on a regular basis. These programs serve as a bridge to opportunities beyond borders, enabling graduates to explore advanced courses and training in developed countries. By pursuing higher education in leading institutions abroad, graduates not only expand their knowledge base but also gain exposure to diverse dental practices and approaches. The overseas education programs at Al Azhar Dental College are meticulously planned and executed, providing students with comprehensive support in every aspect of their transition.

Communicative English Classes

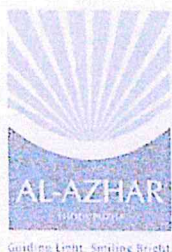

Al Azhar Dental College conducts regular English communication classes, aiding students in improving their language proficiency. These sessions enhance their ability to articulate thoughts effectively, fostering better academic and professional communication skills crucial for their future success in the dental field.

Conclusion

In essence, Al Azhar Dental College's commitment to expertise and competencies is woven into the fabric of its educational philosophy. By providing a robust curriculum, advanced training opportunities, and avenues for global exposure, the institution empowers graduates to excel not only in their local communities but also on a global stage. The graduates of Al Azhar Dental College are not just dental professionals; they are leaders in their field, equipped to shape the future of dentistry.

Programme : Basic Life Support In Association With American Heart Association & Health Career Institute.

Date : 16-11-2021, Tuesday

Venue : Lecture Hall 1

Platform : Offline

No. Of Participants : 34

A Basic Life Support training Programme in association with American Heart Association and Health Cancer Institution was held on 16th November , Tuesday in Lecture Hall -1 AADC. The Programme started at 8.45 am and there were 34 participants included interns, final year students, staff, alumini and doctors from Muvattupuzha, Kothamangalam and tree from Bangalore. There were three instructors (Jain Paul ,Anu James and Neethu George), Principal ,Administrative Officer and other staff were present for the programme.

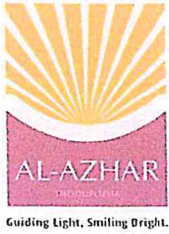

The programme started with prayer and a academic note by Principal Dr. Harvey Thomas. The Session Commented with introduction to BLS, practice session with Adult BLS and use of AED before tea break. After tea break for 15 minutes the programme continued with Pediatric BLS with hands-on.

After a lunch break of half an hour team HCI continued with special considerations, management of choking. High teas were served after the theory and practical exams. All the participants passed the exam with good marks . Feedback forms were collected

The programme concluded with a closing vote by Principal Dr. Harvey Thomas and vote of thanks by Dr. Amal E.A and Dr. Moushmi C.B.

REPORT

Seminar Title: Overseas Career Guidance Seminar

Date: 22nd February 2023

Venue: Lecture Hall 1, Al Azhar Dental College

Speaker: Miss Shobitha Thomas (Project Manager, Santa Monica)

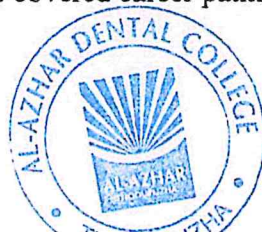

Number of Participants: 182

Summary:

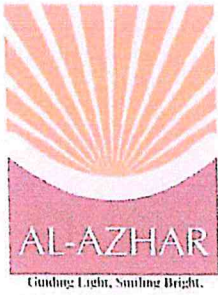

- The seminar on "Overseas Career Guidance" aimed to provide valuable insights and guidance to individuals interested in pursuing overseas career opportunities.
- Miss Shobitha Thomas, who holds the position of Project Manager at Santa Monica, served as the resource person for this seminar.
- The event gathered a substantial audience of 182 participants, all of whom were likely interested in exploring career options abroad.

Key Points Covered:

- Miss Shobitha Thomas likely discussed various aspects of overseas career opportunities, including studying abroad, working internationally, and immigrating for career purposes.
- Topics may have included information about different countries as study or work destinations, visa requirements, admission processes for international universities, and scholarship opportunities.
- The seminar may have covered career paths and job prospects in various fields and industries overseas.

- Participants may have received insights into the challenges and benefits of pursuing a career abroad, as well as advice on making informed decisions.
- Miss Shobitha Thomas may have shared practical tips on preparing for exams like IELTS or TOEFL, which are often required for international admissions.
- The seminar likely aimed to empower participants with knowledge about global career options and the steps needed to embark on an overseas career journey.

The "Overseas Career Guidance Seminar" conducted by Miss Shobitha Thomas provided valuable information and guidance to the 182 participants who were interested in pursuing career opportunities abroad. It likely played a crucial role in helping individuals make informed decisions about their international career aspirations, whether in education or employment.

REPORT

Program Title: What After BDS

Date: January 5, 2022

Venue: Lecture Hall 1, Al Azhar Dental College

Resource Person: Dr. Amitha Basheer

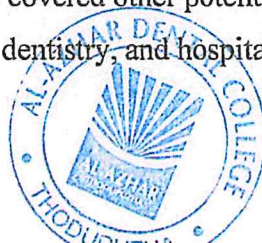

Number of Participants: 169

Summary:

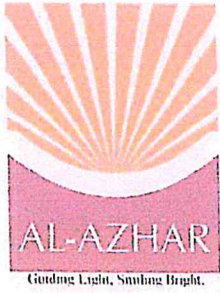

- The career guidance program, "What After BDS," was organized to assist dental graduates who had completed their BDS (Bachelor of Dental Surgery) degree and were exploring various career options.
- This program took place on January 5, 2022, at Lecture Hall 1, Al Azhar Dental College, and it attracted a total of 169 participants, all of whom were likely recent BDS graduates seeking guidance for their post-graduate career choices.

Key Points Covered:

- Dr. Amitha Basheer, as the resource person, likely discussed a wide range of career possibilities available to BDS graduates.
- The program may have included information on pursuing postgraduate studies in dentistry (MDS), both in India and abroad, and the admission procedures involved.
- Participants might have received insights into starting their own dental practices and the challenges and opportunities associated with private practice.
- The program may have covered other potential career paths, such as research, teaching, public health dentistry, and hospital-based dentistry.

- Dr. Basheer likely emphasized the importance of continuous learning and professional development in the dental field.
- Participants had the opportunity to ask questions and clarify doubts related to their career options, helping them make informed decisions.

The "What After BDS" career guidance program, led by Dr. Amitha Basheer, aimed to provide valuable insights and guidance to the 169 participants as they navigated their postgraduate career choices in dentistry. It likely played a significant role in helping dental graduates make informed decisions about their professional futures.

Philanthropic Endeavours: Fostering Healthcare Equity Through Community Outreach and charitable initiatives

Al Azhar Dental College stands at the forefront of philanthropic efforts in the realm of healthcare. Collaborating seamlessly with its affiliated medical college, the institution takes proactive strides towards addressing the healthcare needs of underprivileged populations residing in rural areas.

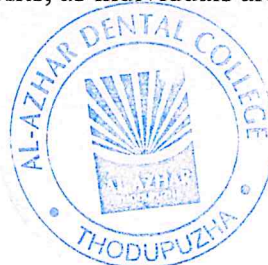

Health Camps

Through a series of meticulously organized health camps, the college endeavours to enhance the well-being of these communities, promote health awareness, and provide essential healthcare services. These health camps represent a beacon of hope for those who often face significant barriers in accessing quality healthcare. In rural areas, where healthcare infrastructure is often limited, these camps play a pivotal role in bridging the gap. They serve as vital touchpoints for communities that may otherwise be excluded from essential health services.

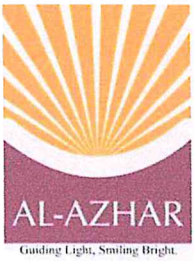

The comprehensive range of services offered during these health camps is a testament to the institution's dedication to holistic healthcare. Beyond the customary check-ups and consultations, the camps extend to encompass diagnostic tests, preventive care measures, and oral prophylaxis. This multi-faceted approach ensures that attendees receive a thorough assessment of their health status. By addressing both immediate concerns and potential underlying issues, the camps strive to provide a comprehensive healthcare experience.

One of the standout features of these health camps is the provision of dental services, including restorations and extractions. Dental health is an integral component of overall well-being, and yet it is often overlooked, especially in underserved communities. Al Azhar Dental College recognizes this gap and actively works towards rectifying it. Through skilled and compassionate dental practitioners, attendees receive essential treatments that may otherwise be beyond their reach.

Moreover, these health camps serve as platforms for health awareness and education. Through informative sessions and interactive workshops, attendees are empowered with knowledge about preventive measures, healthy lifestyles, and early detection of potential health issues. This empowerment translates into long-term benefits, as individuals are better equipped to take charge of their own health and well-being.

Fostering Holistic Growth: Al Azhar Dental College's Integrated Student Development

Introduction

Al Azhar Dental College stands as a beacon of integrated development, where academic excellence converges with cultural enrichment. Through a combination of intra-college activities, inter-college collaborations, and participation in state and national-level cultural competitions, students at Al Azhar Dental College experience a comprehensive and transformative educational journey.

Intra-College Activities: Nurturing Talent Within

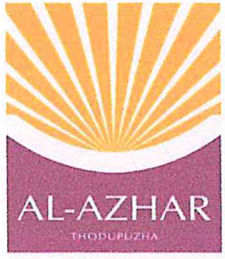

The foundation of integrated student development lies within the institution itself. Al Azhar Dental College places a significant emphasis on intra-college activities, recognizing them as vital components of a student's growth. Various programmes organized in the institution, offer platforms for students to explore their talents and interests beyond the realm of dentistry. Participation in these activities cultivates a myriad of skills, including teamwork, leadership, and communication. For example, the Student's union organizes events like dance competitions, music performances, and literary events, providing students with opportunities to express themselves creatively. This fosters a sense of belonging and camaraderie among the student body, enhancing their overall collegiate experience.

Inter-College Collaborations: Broadening Horizons

Al Azhar Dental College understands the importance of exposure beyond its own walls. The institution actively engages in inter-college collaborations, enabling students to interact with their peers from diverse academic backgrounds. This cross-pollination of ideas and perspectives enriches the learning experience, broadening students' horizons and instilling in them a global outlook. Students are encouraged to participate in programmes organized by the Kerala University of Health Sciences (KUHS) as well as other dental colleges. Participation in such events not only hones students' competitive spirit but also fosters a sense of healthy rivalry. This sharpens their skills and helps them appreciate the value of sportsmanship and mutual respect.

State and National-Level Cultural Competitions: Showcasing Excellence

The pinnacle of Al Azhar Dental College's commitment to integrated student development lies in its active involvement in state and national-level cultural competitions. These events provide a platform for students to showcase their talents on a larger scale, competing with peers from institutions across the region and country. Students are motivated to take part in various events

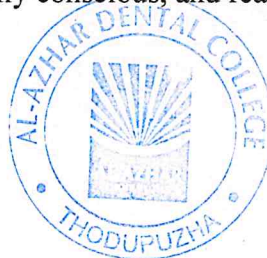

organized by Indian Dental Association, Kerala state branch as well as the regional branches. Participating in these competitions instills a sense of achievement and allows them to benchmark their skills against the best in the field, motivating them to strive for excellence. Whether it be in dance, music, oratory, or fine arts, Al Azhar Dental College consistently nurtures and celebrates its students' accomplishments.

Al Azhar Fest: The Culmination of Cultural Excellence

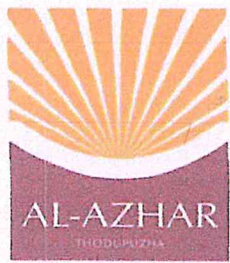

The crowning jewel of Al Azhar Dental College's integrated student development is the highly anticipated Al Azhar Fest. This annual fest features a wide array of events, including dance performances, music concerts, art exhibitions, and fashion shows. It provides a platform for students to showcase their artistic talents and skills, and the festival draws participants and audiences from across the state. It is organized in a campus that houses twelve different institutions, including dental, nursing, and engineering colleges, among others. This creates a vibrant and dynamic atmosphere that is full of energy and enthusiasm, with students and staff from different disciplines coming together to create a diverse and exciting program of events. The festival has become a much-anticipated event in the Kerala cultural calendar, and it is widely recognized for its contribution to promoting and supporting the arts and entertainment industry in the region. The fest's success is a testament to the institution's unwavering dedication to nurturing well-rounded individuals.

Conclusion

Al Azhar Dental College's commitment to integrated student development is evident through its multifaceted approach. From intra-college activities to state and national-level competitions, every facet of a student's journey is meticulously designed to promote holistic growth. Through these endeavors, Al Azhar Dental College not only molds skilled dental professionals but also nurtures individuals who are culturally aware, socially conscious, and ready to make a meaningful impact on the world.

Young Dentist Competition: Fostering Future Leaders in Dentistry

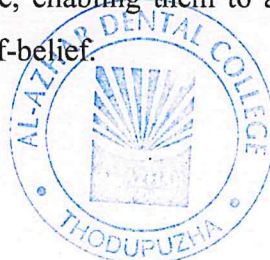

The Young Dentist Competition held at Al Azhar Dental College (AADC) is a cornerstone event in the academic calendar, aimed at identifying and nurturing the brightest talents among the student body. It is usually associated with the dental week celebration, conducted by the student's union. This competition serves as a platform for students to showcase their expertise, knowledge, and leadership potential. By participating in this event, students not only refine their skills but also cultivate essential decision-making abilities, gain confidence, and ultimately contribute significantly to the field of dentistry.

The primary objective of the competition is to identify and acknowledge outstanding students in the field of dentistry. It also helps cultivate decision-making skills, boost their confidence levels, develop and refine leadership abilities and foster a culture of excellence in dental education.

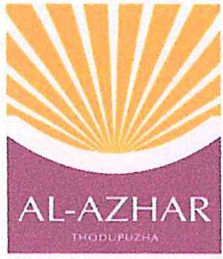

The competition consists of several stages, including self-introduction, talent assessment, question answer rounds, and a panel interview. Participation in the Young Dentist Competition exposes students to a range of complex clinical cases, requiring them to make critical decisions under pressure. This experience hones their ability to analyze situations, weigh potential outcomes, and make informed choices. This is invaluable training for their future roles as dental practitioners, where quick and accurate decision-making is imperative.

The competition also provides an avenue for students to take on responsibilities, both individually and as part of a team. This fosters an environment of leadership development, where students learn to effectively manage tasks, delegate responsibilities, and collaborate with peers.

Engaging in a competitive environment like the Young Dentist Competition empowers students to step out of their comfort zones and perform at their best. The feedback and recognition received during the competition bolster their confidence, enabling them to approach clinical cases and professional interactions with assurance and self-belief.

Presentation Proficiency: Encouraging Student Participation in Academic Presentations

The promotion of paper and poster presentations within the student community of Al Azhar Dental College serves as a cornerstone in the institution's commitment to academic excellence. These efforts aim to cultivate a culture of innovative learning, empower students to take on responsibilities, and enhance their self-assurance. By actively participating in these activities, students not only contribute to the academic community but also develop critical skills essential for their professional growth. The primary objectives of encouraging student participation in paper and poster presentations are as follows:

- Provide platforms for students to assume responsibilities, foster self-assurance and public speaking skills, essential for effective communication in academic and professional settings.
- Promote innovative learning by encouraging students to delve into research endeavors.

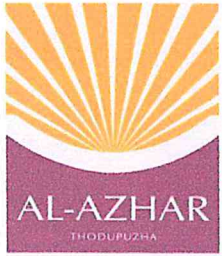

This provides a comfortable environment for honing presentation skills and receiving constructive feedback. Students are encouraged to participate in regional, inter college, university level and national, and international conferences and competitions. These events expose them to a wider audience and allow them to engage with the broader academic community.

Participation in paper and poster presentations encourages students to delve into research, promoting a culture of innovative learning. It enables them to explore novel ideas, critically analyze existing literature, and contribute to the advancement of dental knowledge. Presentation in a public forum, whether internal or external, is a significant confidence-building exercise. It challenges students to articulate their ideas effectively, respond to questions, and engage in scholarly discussions. This experience nurtures self-assurance, a vital attribute for success in both academic and professional realms.

The efforts to encourage student participation in paper and poster presentations at Al Azhar Dental College have proven to be instrumental in promoting innovative learning, providing platforms for

Promoting Sustainable initiatives to inculcate values

Introduction

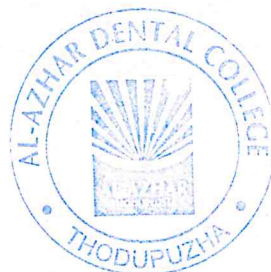

In today's world, where environmental issues are of paramount importance, Al Azhar Dental College has taken bold steps to reduce their carbon footprint and promote sustainable practices. This educational institution, is at the forefront of environmental stewardship. The campus has adopted a variety of energy conservation measures, eliminated plastic usage, cultivated a thriving green environment, and actively encourages eco-friendly transportation. Additionally, Al Azhar Dental College boasts vibrant clubs dedicated to nature and wildlife conservation, actively organizing programs and events to promote sustainability initiatives and advocate for a greener world. Celebrations like World Environment Day, Earth Day, and Tree Plantation Day are key milestones in the institution's commitment to environmental preservation.

Energy Conservation Measures

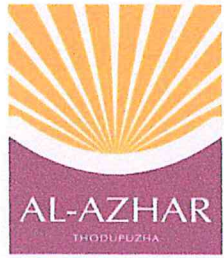

One of the cornerstones of Al Azhar Dental College's sustainability initiatives is its commitment to energy conservation. The installation of solar panels harnesses the abundant energy from the sun to power the data centre in the campus, significantly reducing its reliance on conventional energy sources. Additionally, sensor-based energy systems ensure optimal energy usage by adjusting lighting based on occupancy. The widespread use of energy-efficient LED lighting further enhances the college's energy conservation efforts, reducing both electricity consumption and greenhouse gas emissions.

Plastic-Free Campus

The elimination of single-use plastics on campus is a testament to the college's dedication to environmental responsibility. Plastics are a major contributor to pollution, harming ecosystems and marine life. Al Azhar Dental College has replaced plastic products with eco-friendly alternatives such as biodegradable utensils and reusable water bottles. This transition promotes a sustainable lifestyle among students and staff while significantly reducing plastic waste.

Green Environment through Strategic Landscaping

The campus's lush green environment, featuring a diverse range of trees and plants strategically placed, provides a refreshing and aesthetically pleasing atmosphere. However, this landscaping is more than just eye candy; it serves crucial ecological functions. The trees offer shade, enhancing the campus's overall comfort. They also contribute to improved air quality by absorbing carbon dioxide and releasing oxygen, while creating natural habitats for many birds.

Promotion of Sustainable Transportation

Al Azhar Dental College actively encourages sustainable transportation practices. The institution promotes public transport usage and carpooling among students and staff to reduce the number of vehicles on the road, thus curbing greenhouse gas emissions and traffic congestion. Offering incentives like designated car parking spaces makes it easier for the campus community to make eco-conscious transportation choices.

Nature Club and Birds Club

Within the institution, the Birds Club and Nature Club are two thriving hubs for nature enthusiasts. The Nature Club nurtures a student-maintained seasonal vegetable and herbal garden. Additionally, they organize visits to herbal gardens, providing opportunities for students to deepen their knowledge about herbal cultivation and its benefits.

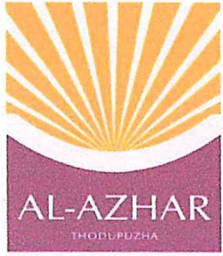

These clubs organize various programs and events, including tree planting drives, bird-watching sessions, and nature conservation workshops. By engaging students and faculty in these activities, Al Azhar Dental College fosters a sense of responsibility towards nature and the environment, creating environmentally conscious citizens.

Celebrating Environmental Milestones

The campus actively participates in global environmental celebrations like World Environment Day, Earth Day, and Tree Plantation Day. These events serve as reminders of our collective responsibility to protect the environment and highlight the college's unwavering commitment to sustainability.

Conclusion

Al Azhar Dental College's dedication to sustainability is an inspiring example of how educational institutions can lead the way towards a greener future. Through innovative energy conservation measures, plastic-free initiatives, strategic landscaping, and the promotion of eco-friendly transportation, the campus serves as a model of environmental stewardship. The presence of vibrant nature and birdsclub underscores the institution's commitment to instilling a sense of responsibility towards nature among its students and faculty. Furthermore, celebrating global environmental milestones solidifies the college's position as a proactive champion of sustainability. As we move forward, Al Azhar Dental College remains steadfast in its mission to create a greener and more sustainable world for future generations.

ACTIVITY REPORT

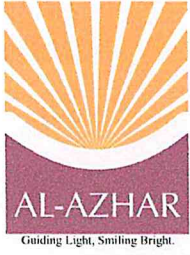

Inauguration of the vegetable garden was done by Dr Tency Mathew on 05-04-2022 at 10am. Various vegetable plants and seeds were purchased from a local nursery. Potting soil was prepared with cocopeat, soil and compost. Vegetables were planted in grow bags after proper manuring. Facility for daily care and irrigation was ensured. Harvesting of the vegetables in proper time and re-harvesting was planned accordingly. Interns and the club members actively participated in the programme.

ACTIVITY REPORT

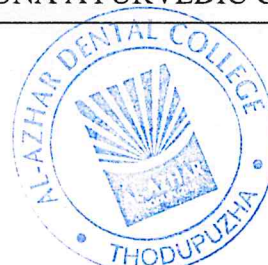

Date :31-01-2023

The field visit to Nagarjuna Ayurveda Center was conducted on 31-01-2023. Dr Tency Mathew and the other club members visited the Ayurveda center. The staffs of the Nagarjuna Ayurveda center took them on a tour of their herbal garden. They explained the medicinal values of the indigenous herbal plants and the importance of plant products in the advancement of medical science. They also explained the process of plant propagation, harvesting and processing of these medicinal plants. The importance of Ayurveda, the traditional medical system in the well-being of humans were also emphasized. The visit and the interaction with the staffs in Nagarjuna center motivated the club members. The club members purchased saplings of more than 50 medicinal plants to start an ayurvedic garden in the campus.

Palliative care

Palliative care is a specialized approach to healthcare that focuses on providing comprehensive support and comfort to individuals facing serious illnesses or conditions, particularly those that are chronic, life-threatening, or terminal. Unlike traditional medical treatments that aim to cure or manage the underlying disease, palliative care prioritizes the enhancement of a patient's overall quality of life, managing pain and symptoms, addressing emotional and psychological needs, and offering spiritual support. This holistic approach extends beyond the patient to their families, aiming to alleviate the physical, emotional, and spiritual burdens often associated with serious illnesses.

Introduction

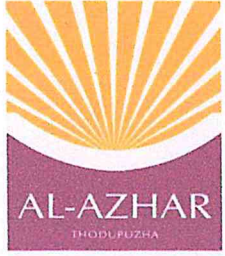

In order to instill a sense of social responsibility and empathy in students, it is imperative that they actively engage in delivering high-quality palliative care to a diverse range of patients. This includes individuals with special needs, geriatric patients, and those from various cultural and socio-economic backgrounds. Al Azhar Dental College has initiated satellite centres to deliver oral health care to Mariyasadanam, Pala, and Divyarakshalayam, Kumaramangalam inmates. This endeavor marks a crucial stride in addressing oral health disparities in institutionalized environments. By this initiative, students not only gain valuable hands-on experience but also develop a deeper understanding of the unique challenges and requirements of patients in different circumstances.

The practice

Students are actively involved in performing clinical procedures at satellite centers. This practical experience is invaluable in honing their technical abilities and instilling confidence in their clinical practice. By actively engaging in procedures under the guidance of experienced mentors, students are better equipped to navigate complex medical scenarios, ensuring that they can provide the highest standard of care to patients. These centers serve as crucial hubs for individuals recovering from debilitating conditions or mental illness. Here, students have the opportunity to work alongside healthcare professionals, witnessing firsthand the transformative effects of rehabilitation efforts. This exposure fosters a sense of compassion and dedication towards patients on their journey to recovery.

Conclusion

In essence, the engagement of students in providing palliative care to a diverse range of patients serves as a powerful tool for nurturing their social commitment. By actively participating in rehabilitation and satellite centers, students gain a deeper understanding of the continuum of care, from acute treatment to rehabilitation and palliation. This comprehensive view of healthcare instills in them a sense of responsibility towards the well-being of patients, encouraging them to approach their future medical practice with dedication, empathy, and a commitment to providing the highest quality of care.

Pandemic initiatives orchestrated by Al Azhar dental College

Al Azhar Dental College has been actively involved in various public programs related to COVID-19. The college has organized several programs to spread awareness and educate the public about the pandemic and how to prevent its spread. In this report, we will discuss some of the programs conducted by Al Azhar Dental College related to COVID-19.

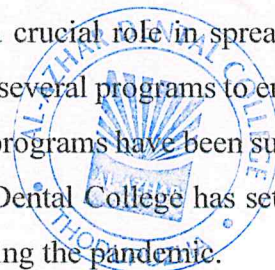

Al Azhar Dental College organized a COVID-19 awareness program to educate people about the virus and its impact on society. The program was conducted in various locations, including hospitals, schools, and public places. The objective of the program was to create awareness about the importance of following safety protocols and to educate the public about the symptoms of the virus.

The program consisted of informative talks by medical professionals, interactive sessions, and the distribution of information pamphlets. The participants were also given an opportunity to clarify their doubts and queries related to COVID-19.

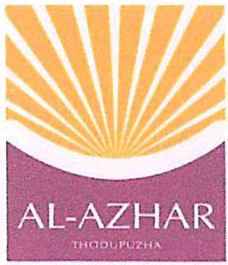

Al Azhar Dental College organized a sanitization drive in several locations to ensure that the public places were clean and safe. The drive involved the use of sanitizers and disinfectants to clean the public areas, including hospitals, schools, and bus stations. The college also distributed sanitizers and masks to the public to ensure that they followed safety protocols.

Al Azhar Dental College also launched a telemedicine program to provide medical assistance to people who were unable to visit hospitals or clinics. The program involved the use of telecommunication and technology to provide medical consultation and advice to the public. The participants were able to communicate with medical professionals through video calls and chat sessions.

Al Azhar Dental College has played a crucial role in spreading awareness and educating the public about COVID-19. The college has organized several programs to ensure that the public follows safety protocols and to prevent the spread of the virus. The programs have been successful in creating awareness and educating the public about the pandemic. Al Azhar Dental College has set an example for other institutions to follow and has played a significant role in combating the pandemic.

'A helping hand to the Kerala flood victims '

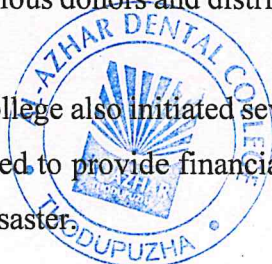

Flood relief mission by Al Azhar dental College

Department of public health dentistry & Student's Union council 17-'18 organised a visit to flood hit area Vazhathoppu panchayathu in Idukki district. Household materials purchased with the financial aid provided by Staffs, Interns, Students and Student union council 17-'18 of Al Azhar dental college.

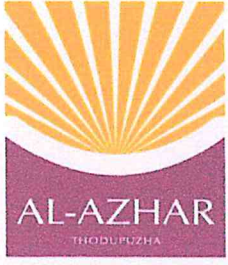

During the Kerala floods that devastated the state in August 2018, Al Azhar Dental College, one of the premier dental colleges in the region, launched several programs to provide medical assistance to the affected people. The floods caused massive destruction, displacement, and loss of life, and Al Azhar Dental College's efforts played a significant role in providing dental care to those in need.

The programs carried out by Al Azhar Dental College during the Kerala floods are:

1. **Dental Camps:** Al Azhar Dental College set up several dental camps in the flood-affected areas to provide immediate dental care to those in need. The camps were equipped with dental chairs, instruments, and other necessary equipment to provide emergency dental care to the affected people.
2. **Mobile Dental Clinics:** In addition to the dental camps, Al Azhar Dental College also launched mobile dental clinics to reach out to the flood-affected people in remote areas. The clinics were equipped with portable dental chairs and instruments to provide basic dental care to the people who were unable to access dental services due to the floods.
3. **Oral Health Education:** Al Azhar Dental College also conducted oral health education programs in the relief camps and other affected areas. The programs aimed to create awareness among the flood-affected people about the importance of oral hygiene and the prevention of dental diseases.
4. **Relief Material Distribution:** Along with the dental services, Al Azhar Dental College also distributed relief materials such as toothbrushes, toothpaste, and other dental hygiene products to the flood-affected people. The organization sourced these materials from various donors and distributed them to the people who needed them the most.
5. **Rehabilitation Programs:** Al Azhar Dental College also initiated several long-term rehabilitation programs for the flood-affected people. The programs aimed to provide financial assistance and other forms of support to help the people rebuild their lives after the disaster.

Blood donation camp

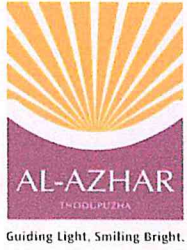

Al Azhar Dental College organized a highly successful blood donation program in February 2022. The program aimed to raise awareness about the importance of blood donation and encourage people to come forward and donate blood. Through a pre-event awareness campaign, simple registration process, medical screening, safe and hygienic blood donation process, and post-donation care, the program was able to attract a large number of volunteers. The blood donation program was conducted in a safe and organized manner, ensuring the health and safety of the donors. The program's success was a testament to the hard work and dedication of Al Azhar Dental College and its commitment to promoting public health and well-being.
