### Agenda:

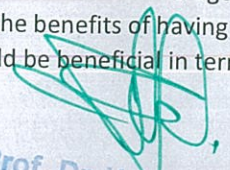

- 1) Buying of new dental chairs
- 2) Establishment of a data centre

### Proceedings:

Dr. V. A. Afzal, the principal of Al Azhar Dental College, began the meeting by welcoming the members present. He initiated the discussion on the first agenda item, i.e., the buying of new dental chairs. Dr. Amal E.A presented the current situation regarding the availability and condition of the existing dental chairs. It was discussed that the current dental chairs are outdated and not functioning properly, leading to delays in dental procedures.

The members then discussed the budget allocated for buying new dental chairs. Dr. V. A. Afzal proposed that the college should invest in high-quality chairs, which may cost more initially but would have a longer life span and be cost-effective in the long run. The members agreed to this proposal and decided to finalize the specifications of the chairs and prepare a tender.

Moving on to the second agenda item, the establishment of a data centre, Dr. Amal E A, presented the benefits of having a data centre for the college. The members agreed that a data centre would be beneficial in terms of data security, storage, and management.

The members then discussed the location and budget for establishing the data centre. After a thorough discussion, it was decided to establish the data centre in the existing IT department of the college. The members also agreed to allocate a separate budget for the establishment and maintenance of the data centre.

Finally, Dr. V. A. Afzal, the principal of Al Azhar Dental College, summarized the decisions made during the meeting and thanked the members for their participation.

Action Items:

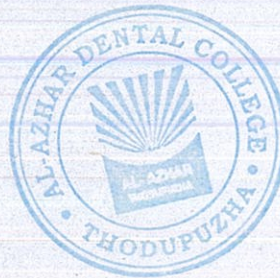

- Dr. Nishin K John to prepare tender specifications for buying new dental chairs.
- Dr. Joe Manuel to assist Dr. Nishin K John in finalizing the specifications.
- Dr. Amal E A to prepare a detailed report on the establishment of the data centre, including the budget and location.
- The administrative staff to allocate a separate budget for the establishment and maintenance of the data centre.
