EXAMINATION MANUAL

Prof (Dr.) M K C Nair

Vice Chancellor

June 20th, 2018

FOREWORD

The process of codifying of the principles, procedures and system with respect to the conduct of the theory and practical Examinations by KUHS, as a Manual – called Manual of Examinations, having been approved by Governing Council, is over and the Manual is about to be released. I think it is apt to consider “As is the Constitution to the Nation polity, so is the Examination Manual to the KUHS Examination system”. It has become a reality now. The future of Examination system could be secured only when it is regulated by written code of procedures and the rule of Law. Only a secured Examination system can give due consideration to the rights of students. The student community has every right to have proper understanding of the functioning of the system (except the area of confidential nature). **All the more, it is very important for the University itself in order to equip itself with prescience, for meeting the challenges of conducting increasing number of examinations flawlessly, keeping away probable oddities.**

Ever since the establishment of KUHS, it has been following a unique system of Examination, which is impartial and objective and which makes use of electronic data processing system and modern communication system substantially.

While going through the Manual, it is clear that the procedures of Examinations are explained as far as possible, in simple terms with definitions and incorporating the required details. I hope the Manual of Examinations will be of immense use to all the stake holders. I congratulate all those who have put in efforts in bringing out this Manual in written form.

PREFACE

Kerala University of Health Sciences, established under the Kerala University of Health Sciences Act, 2010 strives to maintain high academic standards and quality of Health Sciences education. Therefore, the University examination system has been so designed as to accomplish the above objectives. It aims at summative assessment at the end of the academic year or semester term as the case may be, to evaluate whether a student has acquired the required level of knowledge, skills and attributes so as to ensure that he is a competent health care professional. As the stakes in these examinations are very high, it is mandatory to maintain a high degree of accuracy, reliability, integrity, consistency and uniformity in the conduct thereof. To achieve this goal, the University goes on reviewing and revising the examination Regulations from time to time taking into account the emerging challenges, demands and reforms.

Right from the first examination held in August, 2011, we have been following our own novel system, featured with the uniqueness of incorporating into it, publication of Tentative Examination Calendar before the beginning of Academic term, online Theory Question Paper Transmission, Double valuation system, use of bar-coded Theory Answer Books, electronic surveillance in the Theory Examination halls, I T oriented data processing etc. which are the first of its kind in the State. This was made possible in the beginning itself with the able guidance and encouragement of our **founder Vice-Chancellor, Prof (Dr) K.Mohandas**. It is a great pleasure

that the system continues seven years for now all the stake-holders especially the student community has benefited substantially. The current system of Examination is well appreciated by Hon'ble High Court of Kerala, the media and the Scientific Community. This digital initiation and innovative methods may be considered as a model for other Universities in the state.

A written Manual of Examinations can be considered as one of the preconditions of any successful Examination System. There are many stake-holders of the Examination system; the first is undoubtedly, the student Community. In addition, the affiliated Institutions, the Examiners, the Evaluators, the Chief Superintendents, Invigilators etc.- should be able to understand clearly the principles, codes, the standard operating procedures and the system of Examination. We have taken special care to clearly explain the procedures with respect to conduct of Examinations – from publishing of Examination Notifications to publishing of Results. Further, the procedures of uploading Practical Examination marks, procedure with respect to Evaluation of Theory Answer Books etc. are clearly explained in simple terms. The formulation of this Examination Manual is a step forward in this direction. I strongly believe that the releasing of this written manual shall be heralded as a breakthrough in the conduct of the Examination system.

I take this opportunity to convey my gratitude towards each and every member of the Board of Examinations and members of Governing Council who vetted the draft Document. I am also grateful towards each and every member of Staff who contributed to this, who took part in the discussions and meetings and who pointed out the missing points in the Draft and assisted in bringing out this written Manual.
